INDEX TO VOLUME 26

PAGE

Acid-base equilibrium disturbances and renal function in experimental and naturally acquired nephropathies, W. B. MacNider 1
Alkali reserve, effect of ether anesthesia on, W. S. Carter 319
reserve in pellagra, M. X. Sullivan and R. E. Stanton 41
Alvarez, W. C.: Blood pressure in university freshmen and office patients .. 381
Anemia, pernicious, blood chemistry in, A. O. Gettler and E. Lindeman 453
pernicious, pathology of blood in, and other severe anemias, A. W. Peters and A. S. Rubnitz 561
Anesthesia, ether, effect of on alkali reserve, W. S. Carter 319
Aneurysm, protruding, of arch of aorta; study of frozen sections from, G. W. Norris and G. Fetterolf 114
Aorta, aneurysm, study of frozen sections from rupture of protruding, G. W. Norris and G. Fetterolf 114
Arsphenamin, hypersensitiveness to, following exfoliative dermatitis; a cutaneous test, H. C. Stuart and E. P. Maynard, Jr 511
Arteriosclerosis and high protein diets in rabbits, H. L. Newburgh and G. L. Squier 38
Aschoff body, histogenic study of type cells of, in rheumatic myocarditis, R. C. Whitman and A. C. Eastlake 601
Ayer, J. B., and Denis, W.: Method for the quantitative determination of protein in cerebrospinal fluid 436

Bacillus botulinus, possible pathogenicity of, R. B. Edmondson; L. T. Giltner, and C. Thom 357
Barr, David P., and McCann, William S.: Clinical Calorimetry. XXIX. The metabolism in tuberculosis 636
Blau, Nathan F., and Nicholson, Jr., Samuel T.: Fat metabolism in diabetes mellitus 733
Block, bundle branch and arborization, F. N. Wilson and G. R. Herrmann .. 153
Blood, acid-base equilibrium of, disturbances and renal function in experimental and naturally acquired nephropathies, W. B. MacNider 1
chemical pathology of, in pernicious anemia and other severe anemias, A. W. Peters and A. S. Rubnitz 561
chemistry of, in influenza, C. W. Wells 443
chemistry of, in pernicious anemia, A. O. Gettler and E. Lindeman 453
constituents, effect of on picrate solutions, D. M. Cowie and J. P. Parsons 333
picture before and after Goetsch epinephrin test, R. M. Trott 343
pressure in university freshmen and office patients, W. C. Alvarez 381
sugar, normal, some variations in, S. Strouse 751
sugar, studies on, effect of blood constituents on picrate solutions; consideration of modified Lewis-Benedict test, D. M. Cowie and J. P. Parsons 333
Body weight in 229 adults, H. Gray and J. F. Mayall 133
Bradycardia, chronic, F. A. Willius 630
Bundle branch block and arborization block, F. N. Wilson and G. R. Herrmann 153
Burrows, M. T.: Neuritis of cranial nerves in lethargic encephalitis and differential anatomic diagnosis between it and acute poliomyelitis 477

Calorimetry, clinical; XXIX, metabolism in tuberculosis, W. S. McCann and D. P. Barr 663
Carter, W. S.: Effect of ether anesthesia on alkali reserve; an experimental study 319
Cerebrospinal fluid, method for quantitative determination of protein in, W. Denis and J. B. Ayer 436

PAGE

Cohn, A. E.: A new electrode for use in clinical electrocardiography..... 105
Coronary artery obstruction, electrocardiographic sign of, H. E. B. Pardee 244
Cowie, D. M., and Parsons, J. P.: Studies on blood sugar; effect of blood constituents on picrate solutions; considerations of limitations of modified Lewis-Benedict test..... 333
Cunningham, T. D.: Method for the permanent staining of reticulated red cells 405
and Levine, S. A.: Margin of safety of intravenous digitalis in cats... 293

Denis, W., and Ayer, J. B.: Method for the quantitative determination of protein in cerebrospinal fluid..... 436
and Minot, A. S.: A study of phosphate retention from the standpoint of blood analysis..... 99
Dermatitis, hypersensitiveness to arsphenamin following exfoliative; a cutaneous test, H. C. Stuart and E. P. Maynard..... 511
Diabetes mellitus, fat metabolism in, N. F. Blau and S. T. Nicholson, Jr. 738
mellitus; high fat diet in treatment of, L. H. Newburgh and P. L. Marsh 647
Diet, high fat, in treatment of diabetes mellitus, L. H. Newburgh and P. L. Marsh..... 647
high protein, and arteriosclerosis in rabbits, H. L. Newburgh and T. L. Squier 38
Digitalis, margin of safety of intravenous use of, T. D. Cunningham and S. A. Levine..... 293
Drug addiction, narcotic; formation of protective substances against morphin, E. J. Pellini and A. D. Greenfield..... 279
DuBray, Ernest S.: Gastric polyposis (papillomatosis); report of case with operation and presumable cure..... 221
and Rosson, F. B.: Primary mesothelioma of the pleura; a clinical and pathologic contribution to pleural malignancy, with report of a case.. 715

Eastlake, A. C., and Whitman, R. C.: Rheumatic myocarditis; a histogenic study of the type cells of the Aschoff body..... 601
Edmondson, R. B.; Giltner, L. T., and Thom, C.: Possible pathogenicity of bacillus botulinus..... 357
Electrocardiography, new electrode for use in clinical, A. Cohn..... 105
Electrocardiogram, experimental observations on the atypical Q-R-S waves, F. M. Smith..... 205
sign of coronary artery obstruction, H. E. Pardee..... 244
studies on inversion and other anomalies of P wave, W. W. Hamburger 232
Electrode, new, for use in clinical electrocardiograph, A. Cohn..... 105
Emphysema, chronic, pathologic physiology of, R. W. Scott..... 544
Encephalitis, lethargic, neuritis of cranial nerves in; differential diagnosis from acute poliomyelitis, M. T. Burrows..... 477
lethargic; symptoms and histopathology, E. M. Hammes and J. C. McKinley 60
Epinephrin test, Goetsch, blood picture before and after, R. M. Trott.... 343
Erythrocytes, method for staining reticulated, T. D. Cunningham..... 405
Ether anesthesia, effect of an alkali reserve, W. S. Carter..... 319

Fat diet, high, in treatment of diabetes mellitus, L. H. Newburgh and P. L. Marsh..... 647
Fetterolf, G., and Norris, G. W.: Frozen sections from a case of protruding aneurysm of the arch of the aorta..... 114
Fussell, M. H., and Wolferth, C. C.: Case exhibiting slow auriculoventricular rhythm and paroxysmal tachycardia with unusual ability to interrupt the fast rate..... 192

Garland, J., and White, P. D.: Paralysis of left recurrent laryngeal nerve associated with mitral stenosis..... 343
